## DETAILED ACTION

### *Amendment*

Applicant's amendment, filed 3/5/01, has been received and entered. Claims 2, 4 and 5 have been canceled. Claims 1 and 3 have been amended. Claims 34-37 have been added.

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 3, and 34-37 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claim 3 recites a tubular socket receiver towing hitch. Applicant does not show this embodiment with the added limitations in claim 1 which claim 3 depends from.

Claims 36 and 37 recite the limitation of being adapted to be locked. The only locking mechanism disclosed has nothing to do with the folding step recited in claim 1.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 3611

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3, recites "a receiver-type" towing hitch. The word "type" renders the claim indefinite and makes the claim unclear.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

6. Claims 1, 34 and 36-37 are rejected under 35 U.S.C. 102(e) as being anticipated by Mason.

Mason shows, figure 2, a trailer hitch locking assembly with an upper receiver 26 (step, step portion) which has a first and second positions as it is pivotally secured (hinged) to the mounting plate 12. There is a mounting aperture 14 which allows the assembly to be secured to

Art Unit: 3611

the vehicle. The closed position does not allow the hitch to leave or enter the assembly once locked.

***Response to Arguments***

7. Applicant's arguments with respect to claims 1, 3, 34, and 36-37 have been considered but are moot in view of the new ground(s) of rejection.

***Allowable Subject Matter***

8. Claim 35 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

9. The following is a statement of reasons for the indication of allowable subject matter: Claim 35 recites that the step is adapted to be used with a pintle hook. The prior does not show this and the primary reference could not be modified to create this structure.

***Conclusion***

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 3611

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
